

HHV-6 FOUNDATION

Set: HHV-7 Late Antigen Antibodies

Protein Name: KR4

Clone Name: KR4

Specificity: HHV-7

Dilutions: IFA: 1:2650

Concentration: purified ascites, 0.56 μ g/ μ l

Contributor: Yamanishi, K. Laboratory of Virology, Division of Biomedical Research, National Institute of Biomedical Innovation. Japan.

Description: Mouse monoclonal antibodies for the detection of HHV-7 replication in cells or tissues and for purification of the antigen.
