

HHV-6 FOUNDATION

Set:	HHV-6 Latent Antigen Antibodies
Protein Name:	p37
Clone Name:	N/A
Specificity:	HHV-6A & HHV-6B
Dilutions:	IFA: >1:1000 (D wants to ask J.Luka what he uses for titers) IHC: 1:300
Concentration:	100 µg/µl
Contributor:	Luka, J. Bioworld Consulting Laboratories. USA.
Description:	Mouse monoclonal antibodies for the detection of p37, a latent HHV-6 protein.
References:	http://bioworldantibodies.com/
Special Notes:	Reacts very well in cells with latent infections and also in tissues where there is latent genome present.
NIH Status:	Not acquired
MTA Required:	No
